ANNOUNCEMENT

Symposium on Operations Research

The Symposium on Operations Research will be held at the University of Heidelberg, Heidelberg, September 1–3, 1976.

Organization and program committee:

H. Albach, Bonn	J. Merkwitz, Aachen
A. Angermann, Heidelberg	O. Moeschlin, Hagen
M. Beckmann, München	K. Neumann, Karlsruhe
H. Ehlich, Bochum	H. Noltemeier, Göttingen
W. Eichhorn, Karlsruhe	W. Oettli, Mannheim
H. Göppl, Karlsruhe	O. Opitz, Karlsruhe
J. Heinhold, München	B. Rauhut, Aachen
R. Henn, Karlsruhe	K. Ritter, Stuttgart
R. Kaerkes, Aachen	J. Rosenmüller, Karlsruhe
P. Kall, Zürich	N. Schmitz, Münster
K.-P. Kistner, Bielefeld	C.P. Schnorr, Frankfurt
B. Korte, Bonn	H. Schubert, Düsseldorf
W. Krabs, Darmstadt	F. Steffens, Mannheim
O. Krafft, Aachen	W. Stucky, Karlsruhe
W. Krelle, Bonn	W. Vogel, Bonn
H.P. Künzi, Zürich	

The conference is intended to offer a common platform for all OR activities in Germany. To intensify international contacts colleagues from Europe and overseas are also invited to participate. Specialists in both theoretical and practical OR will have the opportunity of presenting and discussing their problems and results. Sessions discussing the following areas are planned:

Optimization and control,
Graphs and networks,
Production theory and planning.

Inventory control and queueing theory,
Replacement, renewal and reliability theory,
Investment and financial planning,
Game theory,
Mathematical economics,
Simulation,
Operations research and computer science,
Problems of application in natural and economic sciences.

Suggestions for further areas of discussion are welcome. Publication is planned of one or more volumes containing full research papers of extended abstracts.

Please address for registration and further questions to:

Prof. Dr. A. Angermann,
Alfred-Weber-Institut der Universität
6900 Heidelberg
Federal Republic of Germany

Lecture abstracts should be submitted until June, 1 to the same address.
